

How to Upload a Video to Facebook

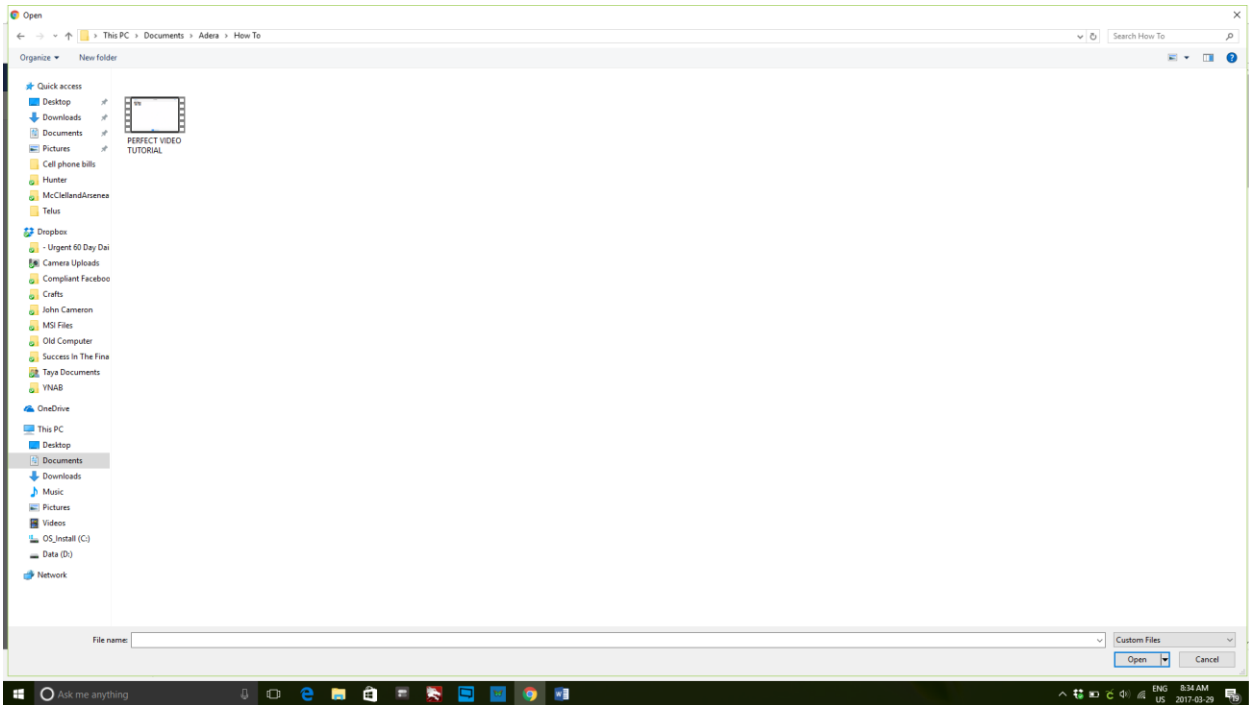

- 1) Log into your Facebook Business Page. Doing this from a computer is much easier than from a smart phone.

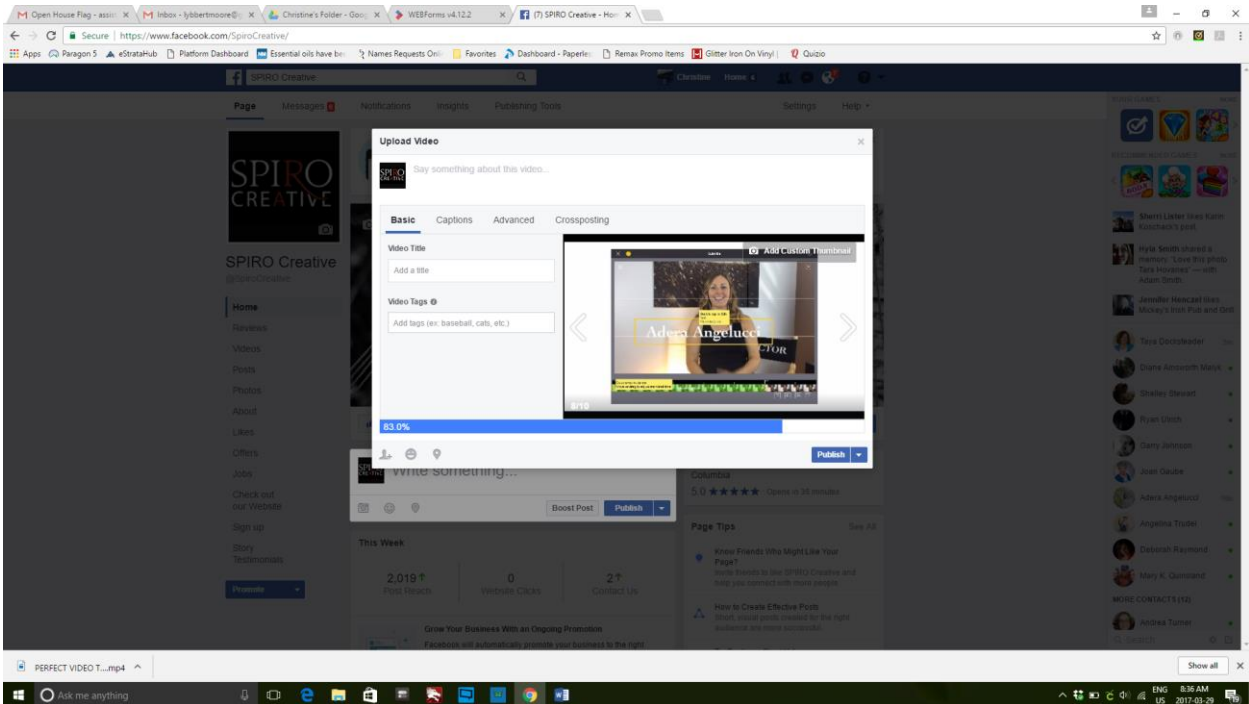

- 2) Click beside your logo in the box "Write Something"

- 3) Click the camera on the bottom left of the box. This will take to select what you want to upload.

4) Double click or highlight and select open.

5) From here you can add a video title, tags, and comments. Then click publish at the bottom right of the box. It can take a few minutes for Facebook to upload the video.
